

C-K tariff info page goes live

By **Chatham Voice** - March 18, 2025

Chatham-Kent's new "Team Canada" online tariff support page is up and running.

Dedicated to addressing the economic challenges facing the community, the page can be located at Chatham-Kent.ca/TariffSupport. It offers live up-to-date information, resources and contacts to help businesses and individuals navigate the tariff changes and access supports. It's a combined effort between the municipality, C-K's Economic Development Services and tourism services.

The municipality wants to emphasize that buying local matters as it strengthens the local economy.

If interested in finding more ways to shop local, residents can access the small business community at Chatham-Kent Small Business Centre.
